Managed Print Services

Best-in-class print solution for every office environment

Reduce print expenses
and gain control

ARC Managed Print Solutions (MPS) delivers the most cost-effective solution reducing print costs by up to 30%. You only pay for what you use.

No monthly fixed costs, no penalty clauses, and no hidden fees. With ARC, you will receive a simple, per image price with all expenses included.

If you don't print, you don't pay.

Only ARC manages all your print requirements including equipment, software, supplies, service and paper.

ARC provides all print-related services in a single, easy to use package

Our MPS combines printers, smart technology and on-site service to deliver:

Devices + Software + Services = TRUE MPS

Access to the latest models of printing and scanning devices with cutting-edge technology – regardless of brand.

- Eliminate redundant devices
- No upfront capital expenses
- Wide selection - HP, Canon, Xerox, Ricoh, Oce, Konica Minolta

Intelligent print management software that streamlines and reduces print usage, while supporting your cost savings initiatives.

- Secure print environment
- Reduce print volume and waste with smart print rules
- Print retrieval
- Cost recovery
- Document sharing platform – no need to print at all
- Print to 170 ARC Service Centers

Technical support and service to solve printer maintenance issues while automating consumable replenishment.

- ARC performs all maintenance and repairs
- Supply replenishment managed by ARC
- National coverage from a single provider
- Includes services and supplies for all your print devices – regardless of brand

Get out of the printing business and switch to ARC today. ARC is the only true MPS provider in the market with no lease contracts and complete print management in a single package.

- One vendor, one invoice
- Only pay for what you use
- No device lease agreements
- All print-related expenses included - no surprises

Your **single source** for all devices

ARC delivers the best devices available in the market today at low prices.

ARC offers flexibility; we do not sell lease contracts. Instead, our MPS contracts are easy to understand and designed specifically for your needs.

Customize your equipment fleet by choosing from a wide range of print devices and multiple manufacturers to meet your precise requirements.

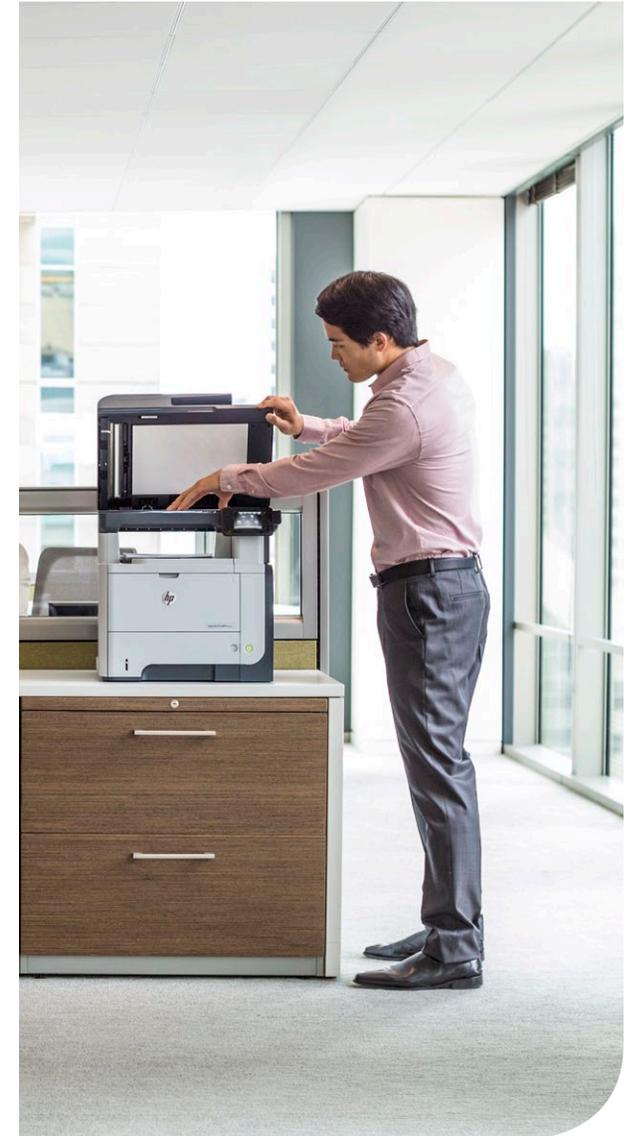

- Multifunction devices (MFP):
  Print, Copy, Scan

- Small format printers
- Desktop printers

- Design & graphics printers

- Large format plotters

ARC and HP bring your projects to life with small format MFPs

As the nation's largest independent distributor of multi-function printers and an HP preferred partner, we offer the most-powerful and advanced line of printers.

Powerful security – Robust, embedded security features create the safest print environment possible for our clients.

Built-in technology – All the latest features without expensive and complicated firmware upgrades and hassles.

Reliability – When combined with ARC's MPS services, HP devices achieve some of the best uptime percentages.

Competitive Pricing – ARC delivers a lower cost by leveraging HP's most current lineup of devices and supplies.

Intelligent Printing begins with Abacus

Abacus, the document workflow and print management software behind ARC MPS, puts you in control of your print environment.

Reduce cost & usage – Smart popups guide users to make more cost-effective and environmentally-friendly choices.

Print to ARC – Only ARC provides a simple way for clients to send large and complex jobs to 170 ARC print centers directly from your desktop. We want our customers to focus on their core business, not printing.

Monitor with a simple dashboard – Use the Abacus dashboard for reporting, environmental snapshots and cost savings opportunities. Its simple and easy to use.

Provide secure printing – Security is a requirement in business today. You can rely on ARC to include the best security options available.
